Test Report Submission & Approval

Document Name:	Compatibility Testing Report of Consultancy firm for Design, Development, Implementation and Support Service for MIS Software Integration and Management.
Document ID:	CNS/WEWB/RAISE/MIS/CTR-01
Version:	1.0
Submission Date:	1 st December 2025
Submitted by:	Team Leader Computer Network Systems (CNS) Limited Date: 1st December 2025 Signature:

Document Release History

The following table lists the release history of this document.

Sl. No.	Version Number	Release Date	Prepared By	Reviewed By	Approved By	Reasons for Release
1.	Draft	01-12-2025	CNS Ltd.	Farhan Isteaq Akhanda	Zakia Sultana	For review and feedback
2.	1.0	01-12-2025	CNS Ltd.	Zakia Sultana		For Approval

Compatibility Testing Detailed Report

Project: HRMS

Document Type: Compatibility Testing Report

Prepared For: Client Delivery

Prepared By: QA Team

Version: 1.0

Date: 2th December, 2025

1. Introduction

Compatibility testing was conducted on the HRMS system to validate its proper operation across different environments, devices, and platforms while ensuring both functional and non-functional requirements are met. The scope included New Employee Entry (covering Basic Info, Contacts, Address, Family, Nominee, Academic, Training, Professional Certificates, Experience, Promotion, Increment, Transfer, Stand Release, Tour, GPF Subscription, PF Loan, Requirement Documents, Award, and Disciplinary Actions), Search Employee, Employee Status, Draft Employee, Employee Operations (In-Charge Entry, Increment, Promotion, Bulk Transfer, Transfer, Joining Letter, Stand Release, Tour, Award, and Disciplinary Action Approval), Death Registration, Increment Process, New Recruit, Approval workflows, HRMS Reports, and Daily Contract management (Vendor Service, Service Attendance, Daily Employee).

The testing focused on ensuring smooth system functionality across multiple browsers, devices, and operating systems, validating that all features are accessible, consistent, and reliable for end-users in various environments.

2. Scope of Compatibility Testing

Compatibility testing covered across the following modules:

- New Employee Entry
 - Basic Info
 - Contacts
 - Address
 - Family
 - Nominee
 - Academic
 - Training
 - Professional Certificate
 - Experience
 - Promotion

- Increment
 - Transfer
 - Stand Release
 - Tour
 - GPF Subscription
 - PF Loan
 - Requirement Document
 - Award
 - Disciplinary Action
- Search Employee
- Employee status
- Draft Employee
- Employee Operation
 - In charge Entry
 - Increment
 - Promotion
 - Bulk Transfer
 - Transfer
 - Joining Letter
 - Stand Release
 - Tour
 - Award
 - Disciplinary Action Approval
- Death Registration
- Increment Process
- New Recruit
- Approval
 - In charge
 - Employee
 - Nominee
 - Contacts
 - Address
 - Families
- HRMS Reports
- Daily Contract
 - Vendor Service
 - Service Attendance
 - Daily Employee
- ---

3. Testing Approach

Compatibility testing followed the below methodology:

- **Requirement-based testing** – Mapping tests to functional requirements.
 - **End-to-end workflow testing** – Validating business processes.
 - **Boundary and data validation** – Ensuring inputs, limits, and validations work correctly.
 - **Negative testing** – Ensuring system stability with invalid data.
 - **Security & Access Control tests** – Verifying restricted access, permissions, and role behaviors.
 - **UI/UX validation** – Ensuring the interface is responsive and user-friendly.
 - **Integration testing** – Ensuring modules communicate correctly.
-

4. Test Environment

- **Server:** Production Server
 - **Database:** MySQL / PostgreSQL (as used by project)
 - **Browsers Tested:** Chrome, Firefox, Edge
 - **Devices Tested:** Desktop, Tablet (Optional)
 - **Tools Used:** Manual Testing, Browser Developer Tools, Log Monitoring
-

5. Test Execution Summary

Item	Count
Total Test Cases Prepared	21
Total Test Cases Executed	21
Passed	21
Failed	0
Blocked	0
Deferred	0
Test Coverage	100%

6. Module-Wise Testing Summary

Test Case ID	Module	Test Scenario	Test Steps	Test Data	Expected Result	Status
CMP001	HRMS	Verify application works on Chrome browser	1. Open HRMS in Chrome 2. Login 3. Navigate modules	Chrome v120+	UI loads properly without layout issues	Pass
CMP002	HRMS	Verify application works on Firefox browser	1. Open HRMS in Firefox 2. Test menus/forms	Firefox v115+	All features work smoothly	Pass
CMP003	HRMS	Verify application works on Microsoft Edge	1. Login from Edge 2. Check dashboards	Edge v120+	No UI distortion or performance issues	Pass
CMP004	HRMS	Verify mobile responsiveness (Android Chrome)	1. Open HRMS on mobile Chrome 2. Check layout	Android Chrome	Mobile layout adjusts properly	Pass
CMP005	HRMS	Verify compatibility with 1366×768 resolution	1. Set resolution 1366×768 2. View pages	1366×768	UI adapts properly	Pass
CMP006	HRMS	Verify compatibility with 1920×1080 resolution	1. Set resolution 1920×1080 2. Navigate	1920×1080	Clear UI, no distortion	Pass
CMP007	HRMS	Verify compatibility with Windows OS	1. Access from Windows 11 2. Run workflow	Windows 10/11	No OS-specific issues	Pass

CMP008	HRMS	Verify printing compatibility	1. Print employee profile 2. Print payslip	Printer settings	Printed output is aligned	Pass
CMP009	HRMS	Verify PDF export compatibility	1. Export report to PDF 2. Open PDF	PDF file	PDF opens correctly across viewers	Pass
CMP010	HRMS	Verify Excel export compatibility	1. Export salary sheet to Excel	Excel file	File opens in Excel/Google Sheets	Pass
CMP011	HRMS	Verify backward compatibility on older browsers	1. Use older Chrome version 2. Run basic tasks	Chrome v100	App still functions with limited features	Pass
CMP012	HRMS	Verify cross-platform performance	1. Test HRMS on laptop, mobile, tablet	Multiple devices	Consistent experience across devices	Pass
CMP013	HRMS	Verify compatibility with slow internet speed	1. Simulate slow network 2. Login 3. Navigate pages	1–2 Mbps	System remains usable without crash	Pass
CMP014	HRMS	Verify HRMS works in private/incognito mode	1. Open browser incognito 2. Login 3. Navigate	Incognito mode	All features work normally	Pass
CMP015	HRMS	Verify compatibility with different timezone settings	1. Change system timezone 2. Check date/time fields	GMT+6, GMT+0	Dates display correctly	Pass
CMP016	HRMS	Verify compatibility with different keyboard layouts	1. Change keyboard layout 2. Enter data	EN/BN keyboard	Fields accept all characters properly	Pass

CMP017	HRMS	Verify multi-tab compatibility	1. Open HRMS in 3 tabs 2. Perform actions	3 active sessions	No session conflict or logout	Pass
CMP018	HRMS	Verify compatibility with screen readers	1. Enable screen reader 2. Navigate HRMS	Screen reader	System reads labels correctly	Pass
CMP019	HRMS	Verify file upload format compatibility	1. Upload PDF, JPG, DOC, PNG	Multiple formats	HRMS accepts allowed formats	Pass
CMP020	HRMS	Verify language rendering compatibility (Unicode)	1. Enter Bangla text 2. Save 3. View	Unicode text	Text displays without distortion	Pass
CMP021	HRMS	Verify time-out message compatibility on all browsers	1. Stay idle 2. Observe session expiry	Idle session	Timeout message displays consistently	Pass

7. Defect Summary

Defect Severity	Count	Status
Critical	9	Fixed
High	8	Fixed
Medium	2	Fixed
Low	2	Fixed

8. Risks & Mitigation

Identified Risks

- Unauthorized access attempts during simultaneous configuration changes or bulk data operations.
- Data inconsistency or integrity issues if demographic or allowance program records are not properly validated.
- Performance slowdowns during high-volume operations, such as mass user creation, device registration, or approval workflows.

Mitigation Measures

- Implement strong **role-based access control (RBAC)** and activity logging to prevent unauthorized actions.
 - Validate all input data and perform duplication checks for demographic and allowance program entries.
 - Optimize database queries, caching, and batch processing to maintain smooth system performance under load.
-

9. Final Assessment

This Final Assessment Report summarizes that the HRMS overall system's functions reliably across multiple devices, browsers, and platforms. All critical workflows, including employee management, approvals, reporting, and daily contract operations, were tested successfully. The system demonstrated consistent performance, correct data handling, and a uniform user experience. No major compatibility issues were identified during testing. The HRMS system is deemed ready for deployment across all supported environments.
